High-Income Objective

Generate aggressive risk-adjusted current income by utilizing a portfolio of structured notes mostly tied to individual stocks with downside principal protection.

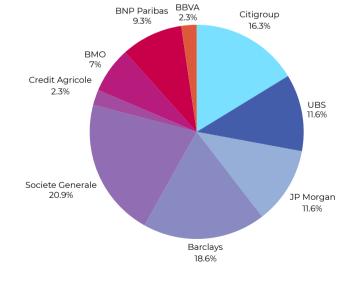

High-Income Portfolio At-A-Glance										
Inception Year	2021	Total # of Notes Invested Since Inception	112							
Weighted Realized Annualized Distribution Rate	21.35%	Weighted Coupon Protection	42.06%							
% of Coupons Paid	72.24%	Weighted Principal Protection	43.81%							
Annualized Realized Principal Loss Since Inception -3.29%										

Total Realized Annual Return*: 16.81%

Issuer Allocation of Active Notes

Please note that the data reported in previous versions of the High Income Structured Notes Bi-Fold contained inaccuracies. These inaccuracies affected documents dated as of September 30, 2024, and December 31, 2024. Specifically, the reported returns for the months of July, August, September, October, November, and December 2024 were incorrect. As a result, the returns for the full year 2024 and the since inception performance figures were also impacted.

Revised and corrected performance data has since been updated to reflect accurate information. We regret any confusion this may have caused and appreciate your understanding.

*Net of fees, past performance is no guarantee of future performances.

Notes that have not experienced a valuation date have been excluded from realized distribution calculations. Performance is as of 4/1/25

*All of the growth and income included for each month was earned, but not necessarily paid, in that month. All capital appreciation is being shown in the month that the maturity or early liquidation occurred, and does not reflect daily price fluctuations. Yearly returns are time weighted and are calculated with the following formula. Sum of (1+a month's Return as a %) times (1+the following month's Return as a percent. This is done for every month of the year, minus 1 at the conclusion of the year. Total Return is calculated similarly, but for each month over the life of the investment and not limited by individual years. The figures shown in the income portion are exclusive of fees earned by Ancorato, as fees are taken from the income portion of the investment. The monthly total return value is calculated by adding month's income and capital appreciation.

10 Example Fixed-Income Notes in Porfolio*(List is not all inclusive)

Underliers	Rate	Duration (Months)	Date Purchased	Principal Protection	Coupon Protection	Issuing Bank
